

SALASARVEG - QUB

Properties:

- SALASARVEG-QUB is based on modified vegetable tanning agent. It imparts properties to the leather which are similar to Quebracho.
- It is ideally suitable for retannage of Chrome tanned leather for all types of leathers.
- It is suitable in the production of high veg leather with good filling and a mellow handle.
- It is also suitable to use for Milled Articles.
- It imparts beige colour to leather hence can be used for all type of colours production in leather processing. It imparts good buff-ability to leather.

Characteristics :

Appearance	:	Mild Redder Brown coloured powder
Ionic Charge	:	Anionic
pH	:	3.5 - 5.5

Indications for application:

SALASARVEG-QUB is used usually after neutralization during retannage in combination with other anionic retanning agent. It gives good results while using along with SALASARVEG - TARA and SALASARVEG-GSP.

- Recommended 4% - 6 % for Shoe Upper, Leather Goods.
- Recommended 2% - 4 % for Shoe Nappa & Lining Leathers.
- Recommended 4% - 6 % for Natural Grain Milled Articles.
