

# SALASARVEG - TARA

## Properties:

- **SALASARVEG - TARA** is Tara Type vegetable pod extract suited for white & pastel shade leather.
- It is ideally suitable for retannage of Chrome tanned leather for all types of leathers.
- It gives clear more brilliant dye shade in comparison to other commonly used chestnut, quebracho and mimosa powder. It's good light fastness.
- It gives grain tightness with a smooth fine grain.
- It prevents up to certain level the formation of Chrome VI during processing.
- It imparts beige colour to leather hence can be used for all type of colours production in leather processing. It imparts good buffability to leather. It is also suitable to use for Milled Articles.

## Characteristics :

Appearance	:	Ivory Colour powder
Ionic Charge	:	Anionic
pH	:	3.0 - 5.0

## Indications for application:

**SALASARVEG - TARA** is used usually after neutralization during retannage in combination with other anionic retanning agent.

- It can be used up to 4 - 6 % in Shoe Upper and leather goods articles.
- It can be used up to 2 - 4 % in Shoe Nappa and Lining Leathers.
- It can be used up to 2 - 4 % in Garment Leathers.
