

SALASARTAN - S-PR

Classification :

SALASARTAN S-PR is a non-ionic mixture of Organic protein filler

Properties:

- SALASARTAN S-PR gives maximum filling effect in low density fiber area like belly and shanks.
- It helps in achieving soft fullness and a good roundness.
- It improves the buffing properties, recommended for Suede and Nubuck.
- It is very much suitable for good surface for buffing / embossing.
- It is a "free from free formaldehyde" product and should be used after dyeing penetration and before fat liquor addition. Better performance can be achieved by using along with small quantity of dispersing agent. It can be used for all types of leather articles.

Characteristics :
