

SALASARVEG - GSP

Classification :

SALASARVEG – GSP is mimosa extract based veg. tanning agent.

Properties:

- SALASARVEG - GSP is Mimosa extract based vegetable tanning agent and it imparts characteristics of mimosa to the treated leather.
- It can be used in the retannage of Chrome tanned leather for all types of leathers.
- Use of this product in retanning results in improved fullness and tightness with a smooth and fine grain.
- It imparts pale clean colour to the leather and helps in producing brilliant shades.
- It is suitable for full veg., milled, nubuck and glazed leathers.
- Its mild astringency never gives harsh grain.
- Its usage helps to reduce Chrome VI problem in treated leather.

Characteristics :

Chemical Composition	: Based on Pyrogallol catechol condensate product
Appearance	: Brown coloured powder
Ionic charge	: Anionic
pH	: 4.5 – 5.5
