

SALASARVEG - VX8

Classification :

SALASARVEG – VX8 is mimosa extract based veg. tanning agent.

Properties:

- SALASARVEG – VX8 is Mimosa extract based vegetable tanning agent and it imparts characteristics of mimosa to the treated leather.
- It can be used in the retannage of Chrome tanned leather for all types of leathers.
- Use of this product in retanning results in improved fullness and tightness with a smooth and fine grain.
- It imparts pale clean colour to the leather and helps in producing brilliant shades.
- It is suitable for full veg., milled, nubuck and glazed leathers.
- Its mild astringency never gives harsh grain.
- Its usage helps to reduce Chrome VI problem in treated leather

Applications:

- SALASARVEG – VX8 is used usually after neutralization during retannage in combination with other anionic retanning agent.
- It can be used up to 4 - 6 % in articles like shoe Upper, Leather Goods
- It can be used up to 2 - 5 % in Shoe Nappa & Lining Leathers

Characteristics :

Chemical Composition	: Based on Pyrogallol catechol condensate product
Appearance	: Brown coloured powder
pH (10% Dilution)	: 4.5 – 5.5
Ionic charge	: Anionic
Moisture Content	: Max. 8%

Packing Available in:

25 Kgs HDPE Bag.

This information is provided in good faith and to the best of our knowledge and without any liability.

Shelf Life / Storage Stability:

One year if stored properly at ambient temperature in supplied packing.
